SPACE SCIENCE BOARD

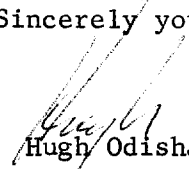

January 16, 1961

Dr. Joshua Lederberg
Department of Genetics
School of Medicine
Stanford University
Palo Alto, California

Dear Joshua:

I am writing in response to your letter of 3 January 1961. I am sure you realize that your concern about man in space is shared here. The February 10-11 meeting of the Board will devote close to half its time to this general area, and I have discussed your letter with both Dr. Berkner and Dr. Lambertsen.

Sincerely yours,

Hugh Odishaw
Executive Director
